CLEAN WATER STATE REVOLVING FUND
DEPARTMENT OF ENVIRONMENTAL QUALITY
STATE OF LOUISIANA
ANNUAL REPORT FOR STATE FISCAL YEAR 2014

INTRODUCTION

The Louisiana Department of Environmental Quality (LDEQ) is a department within the Executive Branch of Government for the State of Louisiana. In compliance with the U.S. Environmental Protection Agency (EPA) rules and regulations and federal grant requirements, the LDEQ submits the Clean Water State Revolving Fund (CWSRF) Annual Report for the State's fiscal year ending June 30, 2014 (FY14). This report describes how the LDEQ has met the goals and objectives identified in the 2014 Intended Use Plan (IUP) and our grant agreement.

The Financial Services Division (FSD) and the Business and Community Outreach and Incentives Division (BCOID) within LDEQ are responsible for administering the CWSRF program in the State of Louisiana. The CWSRF provides assistance to municipalities in the planning and development, financing and implementation of wastewater improvements infrastructure. Engineering oversight, design review, inspection services, environmental assessment services, and program administration are provided by the BCOID. Grant management, loan coordination and all accounting functions are provided by the FSD. All efforts are directed toward improving water quality by assisting communities to meet established effluent limits and achieve the goals of the Clean Water Act.

EXECUTIVE SUMMARY

Since inception of the program in 1988, the CWSRF has been awarded 24 federal grants from EPA. These grants are available through the EPA's Automated Clearing House Payment System (ACH) and the Automated Standard Application for Payments (ASAP). These grants are authorized by Title VI of the Clean Water Act, as amended in 1987 and require matching funds from the state. As of June 30, 2014, the EPA has awarded grants of \$424,419,923 to the LDEQ, which includes \$15,000 of in kind dollars and \$43,081,400 of American Recovery and Reinvestment Act (ARRA) dollars. Of total grant amounts awarded, \$401,584,349 has been drawn for loans and administrative expenses. The LDEQ has provided matching funds of \$79,393,233 (Note 7).

The LDEQ has provided its required state match on Federal grant awards with State General Fund appropriations, Capital Outlay appropriations, tobacco settlement funds and bond proceeds.

Under the terms of the federal capitalization grants to the LDEQ, four percent (4%) of the award is allocated to fund the administrative costs of operating the CWSRF program. At June 30, 2014, a balance of \$2,762,265 (note 8) in unexpended 4% funds was available for administration. Also, an administrative fee of 0.5% is assessed on all outstanding loan balances. These fees are collected and held outside the CWSRF to administer the program.

The LDEQ operates the CWSRF as a direct loan program where Federal and State monies are lent directly to municipalities.

CLEAN WATER STATE REVOLVING FUND _____

GOAL STATEMENTS

A. Long-Term Goals

The CWSRF continues to maintain long-term goals to meet water quality standards and ensure the long-range integrity of the fund.

Goal 1: Provide low-cost financing for important water quality projects while maintaining the perpetuity of the CWSRF.

The LDEQ finalized 16 municipal loan projects at an interest rate of .95% in FY14

Goal 2: Promote and advance wastewater treatment facility improvements in order to meet the requirements of the CWA through compliance assistance. Provide financial assistance to municipalities and other eligible recipients in pursuing statewide compliance with Federal and State water quality standards, assist borrowers in complying with the enforceable requirements of the CWA and to reach the goal of eliminating discharge of pollutants into the State's waters.

The LDEQ continues exhaustive outreach efforts to reach communities across the state in order to promote the CWSRF program as a means of assistance available to them in maintaining compliance with the Clean Water Act. These outreach efforts included meeting with mayors and local elected officials in the state in their respected communities, informing them of the CWSRF program.

To ensure that the benefits of the CWSRF program are felt statewide, the LDEQ evaluates geographical diversity along with compliance issues of our municipalities. The LDEQ also targets projects where there is an opportunity to eliminate any eminent threats to human health and the environment or areas that have direct or indirect impacts to impaired waterways identified on the EPA approved 2006 Louisiana Water Quality Integrated Report.

The LDEQ closed 16 loans in FY14 totaling \$85,837,185. These projects were spread over 12 parishes and 15 different municipalities. By utilizing this comprehensive evaluation and funding structure, the LDEQ is able to distribute funding to qualified recipients across the state and make widespread advances in achieving compliance with Federal and State water quality standards.

Goal 3: Expand CWSRF accessibility by creating financial assistance programs that address nonpoint source control and other nontraditional CWSRF projects.

The LDEQ continues to expand accessibility through outreach and education regarding the benefits of nonpoint source improvements and other nontraditional projects. The LDEQ has presented this information at numerous conventions throughout the

year. The LDEQ is currently working with the Town of Grand Isle and the Winn Parish government to implement two non-point source projects.

B. Short-Term Goals

The LDEQ will pursue the following short-term goals in an effort to continually improve the CWSRF program:

Goal 1: Provide principal forgiveness to a community or communities that could not otherwise afford the project.

The LDEQ has awarded \$1,541,300 in principal forgiveness to one municipality.

Goal 2: Fund green infrastructure, water, and energy efficiency and environmentally innovative projects in an amount that is at least twenty percent of the capitalization grant.

The LDEQ has allocated monies to one municipality to an energy efficiency project.

Goal 3: Expedite project development and construction by encouraging recipients to begin construction within one year of placement in the Intended Use Plan.

The LDEQ works with applicants and their representatives to ensure project progression. LDEQ has set internal deadlines to ensure documents are reviewed in a timely manner so that projects may proceed as expeditiously as possible. LDEQ staff also engages applicants in conversation to monitor progression toward construction and to offer assistance in accomplishing their goals.

Goal 4: Provide outreach to municipalities across the state of Louisiana.

The LDEQ staff participated in the annual conferences for the Louisiana Police Jury Association meeting and the Louisiana Municipal Association by displaying a booth to promote the CWSRF to local communities. The LDEQ also works with Rural Utilities, Community Block Grants, and the Governor's Office of Rural Developments, jointly funding projects throughout the state.

Goal 5: Participate in the Louisiana Waste Water Joint Funding Committee (LWWJFC).

In FY14, the LWWJFC met 5 times and reviewed applications received by all participating agencies. Through sharing of application and the pursuit of joint funding efforts, participating agencies were able to better utilize available funding to best serve the state. We believe that working in unison with the other loan programs will also offer further promotion of our program that will result in future loans and help to sustain the new increased pace of LDEQs CWSRF program.

CLEAN WATER STATE REVOLVING FUND _____

Goal 6: Close at least 6 loans totaling more than \$36 Million.

In FY14, the LDEQ finalized 16 municipal loan projects totaling \$86,837,185.

Goal 7: Apply for the FFY 2014 Capitalization Grants in SFY 2014.

LDEQ applied for FFY 2014 Grant, and the Grant was awarded on June 18, 2014.

Goal 8: Issue a Revenue Bond to provide matching funds for Federal Capitalization Grants as necessary

The LDEQ issued one Revenue Bonds in FFY14 in the amount of \$2,600,000 on May 6, 2014 to provide matching funds for Federal capitalization grants.

DETAILS OF ACCOMPLISHMENTS

A. Fund Financial Status

1. Loans Awarded - The LDEQ finalized 16 loans totaling \$85,837,185.
2. Binding Commitments - The LDEQ signed 16 binding commitments in FY14 totaling \$85,837,185.
3. Sources of Funds - A total of \$17,131,977 (Note 7) in grant revenues was drawn and made available to the LDEQ during FY14. This revenue was drawn from CS-220002-10, CS-220002-11, CS-220002-12 and CS-220002-13. The remaining grant balance for FY14 is \$5,703,597. (note 7). Other funds available in FY14 were \$17,521,305 from principal repayments (exhibit 2), \$607,205 interest earned on cash in state treasury and \$2,321,165 interest on outstanding loan balances.
4. Expenses of the CWSRF – The LDEQ incurred total administrative expenses of \$739,898 in FY14.

B. Assistance Activity

Exhibits 1 through 3 illustrate the assistance level and financial activity of the CWSRF since inception of the program.

Exhibit 1A shows a list of loans that have closed by the CWSRF program. Exhibit 1B provides data on the State's binding commitment requirements. Exhibit 2 shows principal collections from borrowers during FY14, and finally exhibit 3 shows disbursements made during FY14 to loan projects for design and construction.

C. Provision of the Operating Agreement / Conditions of the Grant

The LDEQ agreed to several conditions in the Operating or Grant Agreements. The following conditions have been met and are self-explanatory:

1. Agreement to Accept Payments
2. State Laws and Procedures
3. Use of the ACH and ASAP
4. Annual Audit
5. Annual Report
6. Annual Review

The following conditions are described more fully below:

1. Provide a State Match

Since inception of the program in 1988, the CWSRF has been awarded 25 federal grants from EPA. As of June 30, 2014, the EPA has awarded grants of \$424,419,923 to the LDEQ, which includes \$15,000 of in kind dollars and \$43,081,400 of American Recovery and Reinvestment Act (ARRA) dollars. Of total grant amounts awarded, \$418,716,326 has been drawn for loans and administrative expenses. The LDEQ has provided matching funds of \$79,393,233 (Note 7).

In FY95, Louisiana received EPA approval to issue up to \$15,000,000 in state match revenue bonds secured by revenues of the CWSRF. This state match financing arrangement was similar to a letter of credit in that bond funds were available to be drawn as needed. Bond funds are immediately deposited into the CWSRF fund when drawn. In FY02 the state set up bonds of up to \$12,000,000 that were issued as state match. A third bond agreement was established in FY07 for \$10,000,000, amended in FY10 to \$20,000,000, amended in FY12 to \$25,000,000, and amended to \$35,000,000 in FY14 of which \$2,600,000 were issued during FY14. As of June 30, 2014, \$52,639,647 (Note 7) in net proceeds from these bond issues was deposited into the fund as state match. No liability exists for these bonds as of June 30, 2014.

The LDEQ has deposited sufficient cash into the CWSRF to meet its proportionate share prior to accessing grant monies made available through the Federal ACH. The cumulative amount deposited into the CWSRF for State Match is \$79,393,233 (Note 7).

2. Binding Commitments With-in One Year

The LDEQ met its binding commitment requirement of this reporting period. At the end of this reporting period, actual cumulative commitments are \$970,941,867, and required cumulative commitments are \$491,691,508. The LDEQ has not only met 465% binding commitment requirement per the EPA capitalization grant agreement, but has exceeded the 120% requirement by an additional 479%. In effect, LDEQ's binding commitment for FY13 was 585%. This cumulative excess totals \$479,250,359 of actual binding commitments over required binding commitments. Exhibit 1B provides information on

CLEAN WATER STATE REVOLVING FUND _____

binding commitment activity.

3. Timely and Expeditious Expenditures

The LDEQ disbursed all cash draws and other available CWSRF funds in a timely and expeditious manner. The LDEQ is monitoring projects to ensure timely initiation of operations in accordance with the established schedules.

4. First Use of Funds for Enforceable Requirements

The first use requirements have been met. All National Municipal Projects in Louisiana are in categories identified in 40 CFR 35.3135(e) (3). In the event that any of the National Municipal Projects are no longer in compliance, and the equivalency requirements have not been met for all capitalization grants, then such projects shall be offered assistance through the CWSRF process before other projects.

5. Compliance with Title II Requirements

All projects in the Exhibit 1A followed by an asterisk meet equivalency requirements. Since the inception of the program twenty-one loans totaling \$79,998,000 were funded as equivalency projects that meet the Title II requirements. All Title II requirements have been met, and Title II is no longer applicable. The last Title II equivalency project was funded June 1995.

6. Disadvantaged Business Enterprises (DBE) Requirements

The LDEQ monitors all loan recipients for compliance with DBE fair share efforts. The BCOID reviews all construction contracts prior to award to insure compliance with the six affirmative action steps and requires that contractors furnish the LDEQ with a copy of all DBE subcontracts.

This requirement is emphasized to the loan recipients in pre-construction conference and also in the instructions for processing pay requests. DBEs usually represent small businesses that are sub-contracted to perform smaller jobs. In FY14, 14 sub-agreements for construction services from larger contractors were awarded to DBEs.

Additionally, the LDEQ provides current website links to the Louisiana Department of Transportation and Development's Unified Certification Program which contains a current listing of DBEs in the state.

7. Other Federal Authorities

The LDEQ and all recipients of CWSRF funds are required to comply with applicable Federal authorities and regulations. Completed loan agreements include these federal assurances.

8. State Environmental Review Process (SERP)

The LDEQ conducts environmental reviews in accordance with the SERP on all projects submitted for funding. There were 9 environmental reviews finalized in FY14.

9. Davis – Bacon

The LDEQ monitors all loan recipients for compliance with Davis – Bacon (DB) requirements. The BCOID reviews all construction contracts prior to award to insure compliance with the DB requirements and requires that contractors post required information and furnish the LDEQ with a copy of all payroll information and interviews. This requirement is emphasized to the loan recipients in pre-construction conference and also in the instructions for developing Plans and Specification documents.

10. Cash Draw and Disbursement Schedule/Commitment

Generally, loan disbursements are made by drawing Federal funds into the CWSRF before the payment is made to the local municipality. Administrative costs are paid by the LDEQ and then recovered after the administrative charges are totaled for a particular month. Typically, at the end of a fiscal year, LDEQ may have (1) accumulated some administrative expenses and not been reimbursed from ACH and in other cases, (2) disbursed funds to municipalities and not been reimbursed from ACH, and (3) received payment requests for projects, but have not disbursed the funds. At the end of FY14 \$89,111 (Note 3) was due from the Federal ACH because of these timing differences. These matters are reconciled within the following accounting month.

11. Accounting and Auditing Procedures

The State of Louisiana requires the LDEQ to utilize the LAGov Enterprise Resource Planning System (LAGov), a comprehensive financial management system. LAGov has been designed to meet the common accounting, management, and informational needs of all departments and branches of Louisiana State Government, including the central fiscal control agencies. LAGov provides accounting, reporting, procedures, forms, cash and budgetary control over all financial transactions including the financial operations of the CWSRF program and other federal programs.

Beginning in FY06, the LDEQ began utilizing program manager software which tracks all aspects of the CWSRF. Program Manager also provides numerous financial and tracking reports, as well as billing and forecasting functions. In 2013 LDEQ transitioned to LGTS which moves the Program Manager system from Access Tables to Oracle tables.

All financial transactions including accounting, fiscal and audit procedures conform to Generally Accepted Accounting Standards as promulgated by the Governmental Accounting Standards Board. For the fiscal year ending June 30, 2014, the LDEQ has contracted with Pinell & Martinez, LLP to have a financial and compliance audit conducted on its CWSRF program. A report with an opinion on the financial statements,

CLEAN WATER STATE REVOLVING FUND _____

a report on internal controls, and a report on compliance with the Title VI of the Clean Water Act will be available subsequent to the end of the fiscal year.

Loan recipients are required to maintain adequate financial records in accordance with accounting principles generally accepted in the United States, and to make these records available to the LDEQ and EPA. As required by State law, recipients must have an audit conducted on their books and accounts by an independent firm of certified public accountants. These audited financial statements are then submitted to the LDEQ.

CLEAN WATER STATE REVOLVING FUND
DEPARTMENT OF ENVIRONMENTAL QUALITY
STATE OF LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR STATE FISCAL YEAR 2014

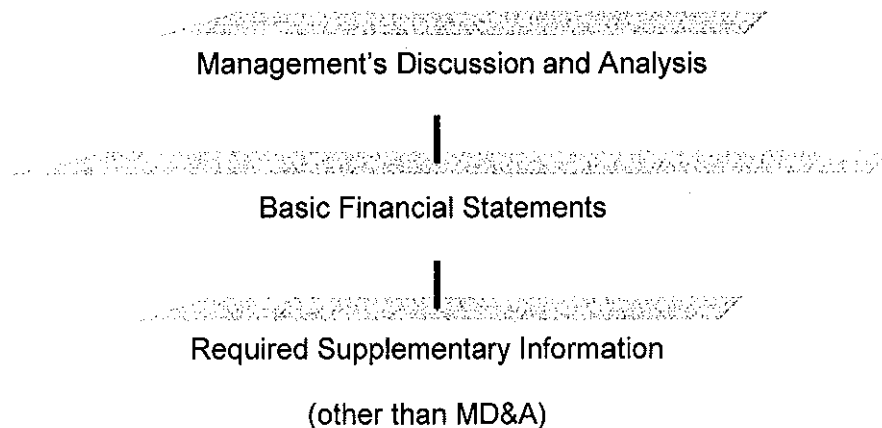

Management's Discussion and Analysis of the Clean Water State Revolving Fund's (CWSRF) financial performance presents a narrative overview and analysis of the CWSRF's financial activities for the year ended June 30, 2014. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the transmitted letter presented on page 1 and the CWSRF's financial statements, which begin on page 14.

FINANCIAL HIGHLIGHTS

- ★ The CWSRF's assets exceeded liabilities at the close of fiscal year 2014 by \$543,414,824 which represents a 3% increase from last fiscal year. The assets increased by \$16,322,734 (or 3%).
- ★ The CWSRF's revenue decreased \$981,774 or (17%) and the net results from activities increased by \$15,996,076 (or 3%).

OVERVIEW OF THE FINANCIAL STATEMENTS

The following graphic illustrates the minimum requirements for Special Purpose Governments Engaged in Business-Type Activities established by Governmental Accounting Standards Board Statement 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the Basic Financial Statements (including the notes to the financial statements), and Required Supplementary Information.

Basic Financial Statements

The basic financial statements present information for the CWSRF as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

The Statement of Net Position (pages 14) presents assets, deferred outflows of resources, liabilities, and deferred inflows of resources separately. The difference between assets plus deferred outflows and liabilities plus deferred inflows is net position, which may provide a useful indicator of whether the financial position of the CWSRF is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Net Position (page 15) presents information showing how CWSRF's assets changed as a result of current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

The Statement of Cash Flows (pages 16) presents information showing how CWSRF's cash changed as a result of current year operations. The cash flow statement is prepared using the direct method and includes the reconciliation of operating income to net cash provided(used) by operating activities (indirect method) as required by GASB Statement 34.

CLEAN WATER STATE REVOLVING FUND _____

FINANCIAL ANALYSIS OF THE ENTITY

Statement of Net Position as of June 30, 2014 (in thousands)

	Total	
	2014	2013
Current and other assets	\$ 543,860,692	\$ 527,537,958
Capital assets	-	-
Total assets	<u>543,860,692</u>	<u>527,537,958</u>
Total deferred outflow of resources	-	-
Other liabilities	445,868	119,296
Long-term debt outstanding	-	-
Total Liabilities	<u>445,868</u>	<u>119,296</u>
Total deferred inflow of resources	-	-
Net position:		
Net investment in capital assets

Unrestricted	543,414,824	527,418,662
Total net position	<u>\$ 543,414,824</u>	<u>\$ 527,418,662</u>

Restricted assets represent those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements. Conversely, unrestricted assets are those that do not have any limitations on how these amounts may be spent.

Assets of the CWSRF's increased by \$16,322,734, or 3%, from June 30, 2013 to June 30, 2014. The primary reason is due to the increase of loan receivables. Other causes include a decrease in cash because the CWSRF used Repayment funds to pay some of the disbursements on our loans as grant dollars were exhausted.

CLEAN WATER STATE REVOLVING FUND_____

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The CWSRF's elected and appointed officials considered the following factors and indicators when setting next year's budget, rates, and fees:

- Projects on the priority list that will close in the budget year
- 10 year Cash Flow Model prepared by our financial advisors
- Current and expected market rates

The CWSRF expects that next year's results will improve based on the following:

- The CWSRF expects to close several larger loans in State Fiscal Year 2015
- The CWSRF is planning on hosting a conference/workshop in State Fiscal Year 2015 with other state agencies to advertise to all the LA municipalities therefore increasing awareness of our program
- The CWSRF continues to carry a .95% interest rate which is lower than market rates

CONTACTING THE CLEAN WATER STATE REVOLVING FUND MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the CWSRF's (BTA) finances and to show the CWSRF's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Karyn Andrews, Accountant Administrator at (225) 219-3865.

INTRODUCTION

The Louisiana Department of Environmental Quality (LDEQ) is a department of the State of Louisiana. LDEQ was created in accordance with Louisiana Revised Statute (R.S.) 30:2011 as a part of the executive branch of government. LDEQ is charged with environmental protection within the State of Louisiana.

The Clean Water State Revolving Fund (CWSRF) program was established pursuant to Title VI of the Clean Water Act, as amended in 1987 (the Act). The CWSRF program presently operates under R.S. 30:2301-2306 (Act 296 of the 2010 Regular Session of the Louisiana Legislature). This statute establish a state revolving loan fund capitalized by federal grants (Capitalization Grants for Clean Water State Revolving Funds, CFDA 66:458), by state funds when required or available, and by any other funds generated by the operation of the clean water revolving loan fund. LDEQ is authorized to engage in activities regarding the sums on deposit in, credited to, or to be received by the state revolving loan fund. The Financial Services Division and Business Community Outreach and Incentives Division within LDEQ are responsible for the operations of the CWSRF Program in the State of Louisiana. These divisions within LDEQ provide assistance to municipalities in the development, financing and implementation of wastewater treatment management plans and plants. Engineering oversight, design review and inspection services as well as environmental assessment services and program administration are provided by the Business Community Outreach and Incentives Division; and grant management, loan coordination and accounting functions are provided by the Financial Services Division on eligible wastewater treatment projects. All efforts are directed toward improving water quality by assisting communities in providing wastewater treatment processes that meet established effluent limits and achieve the goals of the Clean Water Act.

The CWSRF does not have any full-time employees. However, the time spent on the CWSRF by employees of the department is captured and the CWSRF subsequently reimburses LDEQ for their salaries and benefits and other operating expenses of the fund utilizing our current indirect cost rate.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements have been prepared on the full accrual basis in accordance with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting principles and reporting standards. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards*, published by the GASB. Management of the fund applies all GASB pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Management has elected to follow GASB statements issued after November 30, 1989, rather than FASB statements.

B. REPORTING ENTITY

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and has defined the governmental reporting entity to the State of Louisiana. The accompanying financial statements represent activity of a fund of the State of Louisiana that is administered by LDEQ, a department within state government. The CWSRF is part of the primary government of the State of Louisiana.

Annually, the State of Louisiana issues a comprehensive annual report, which includes the activity contained in the accompanying financial statements. Those basic financial statements are audited by the Louisiana Legislative Auditor.

C. FUND ACCOUNTING

For purposes of this report, the CWSRF uses a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public, on a continuing basis, be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

D. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The transactions of the CWSRF are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operations are included on the Statement of Net Assets.

The CWSRF uses the accrual basis of accounting. Revenues are recognized in the accounting period when they are earned and expenses are recognized when the related liability is incurred.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and/or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the CWSRF are federal funds and interest earnings. Operating expenses include the administrative expenses of the program and bond issuance and related costs. Any revenues and expenses not meeting this definition would be reported as non-operating revenues and expenses.

E. BUDGETS AND BUDGETARY ACCOUNTING

The CWSRF is budgeted annually by the Louisiana Legislature through the Ancillary Appropriations Act. The Ancillary Appropriations Act, Act 44 of the 2013 Regular Session as amended, authorized expenditures of \$85,000,000 for the loan program for fiscal year 2014 and allows the fund to retain resources to fund future loans and eligible program activities. Because the fund is an enterprise fund, a budgetary comparison is not required nor presented in the financial statements.

F. LOANS RECEIVABLE

The CWSRF is operated as a direct loan program. The program provides loans and other financial assistance to municipalities for the purpose of planning, constructing publicly owned treatment works, implementing nonpoint source pollution management programs, and developing and implementing estuary conservation and management plans.

The program lends federal and state monies directly to municipalities. For every \$5 provided by the federal government, the state is required to provide a matching share of \$1. The effective match share reflects a federal rate of 83.33% and a state rate of 16.67%. The federal share is received through grants made by the Environmental Protection Agency (EPA). Recycling of principal and interest repayments from borrowing municipalities allows the program to operate in perpetuity thereby benefiting other municipalities wishing to borrow in the future. Borrowers pay principal and interest directly to the loan program, and all monies are deposited directly to the program. Principal repayments can only be used to make additional loans to municipalities. Interest earnings on investments and loans can be used to make additional loans. In addition, with EPA approval, interest earnings on investments and loans are used to pay off revenue bonds sold to capitalize the program by providing state matching funds.

Loans made by the CWSRF must be made at or below market interest rate for a period not to exceed twenty years from the completion of the construction of a project approved by the department.

The CWSRF finance charge on new loans is stated in loan documents as a 0.45% interest rate plus a 0.50% administrative fee charged only on loan monies drawn. This rate was set by the Secretary of LDEQ on January 26, 2009.

As evidence of its obligations to pay principal and interest on the loans, each borrower must establish a dedicated source of revenue for repayment of the loan [33 USC 1383(d) (1) (C)]. For substantially all of these loans, the loan recipient issues bonds that are purchased by LDEQ, as administrator of the CWSRF, to secure the repayment of the principal loaned. Principal and interest on the bonds are paid to the CWSRF and upon repayment of the loan, the bonds are returned to the loan recipient. Minimum required coverage ratios are established depending on the nature of the bonded indebtedness issued by the loan recipient as follows:

NOTES TO THE FINANCIAL STATEMENTS

For limited tax bonds, the principal and interest due in any year on the amount borrowed shall not exceed 75% of the revenues estimated to be received from the levy of the pledged millage in the year in which the indebtedness is issued (R.S. 39:742.2).

For sales tax bonds, the total amount of principal and interest falling due in any year, together with principal and interest falling due in such year on any previously issued sales tax bonds, shall never exceed 75% of the amount of sales tax revenues estimated by the governing authority of the issue to be received by it in the calendar year in which the bonds are issued (R.S. 39:698.4).

For revenue bonds, the requirements for coverage are established contractually in the loan documents (R.S. 39:1019). Expected coverage ratios might range from 110% to 130% or more. The CWSRF goal for collection of the dedicated revenues for repayment of the loan secured by revenue bonds is 125%; however, many factors can create deviation from this goal. It is customary to have the same minimum required coverage ratio as was previously established for outstanding debt of the loan recipient.

For general obligation bonds, the requirements for coverage are statutorily set. The governing authority of the issuer is required to impose and collect annually, in excess of all other taxes, a tax on all property subject to taxation by the issuer sufficient in amount to pay the interest and principal falling due each year, or such amount as may be required for any sinking fund necessary to retire said bonds at maturity (R.S. 39:569). Typically, the bond millage is adjusted each year so as to generate enough revenues to pay debt service in the ensuing calendar year. No coverage requirements or debt service reserves exist, because the tax can be adjusted each year *without any limitation whatsoever* to collect the appropriate amount each year.

In the case of sales tax bonds and revenue bonds, each loan recipient is also required to set up a debt service reserve fund equal to 10% of the loan amount or one year's principal and interest for the purpose of paying principal and interest should the dedicated revenues be insufficient for that purpose. The requirement to maintain a debt service reserve fund is not statutorily required, but is usual and customary for these kinds of indebtedness.

Because of the reserve requirements and the absence of any delinquent loans, there is no provision for uncollectible amounts.

G. NET ASSETS

Net assets comprise the various net earnings from operations, non-operating revenues, and contributions of capital. Net assets generally are classified in the following components:

Invested in capital assets, net of related debt consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets consist of net assets subject to external constraints placed on net asset use by creditors, grantors, contributors or law or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of all other net assets that are not included in the other categories previously mentioned.

H. CAPITAL CONTRIBUTIONS

The funds drawn from the EPA capitalization grants authorized by Title VI of the Clean Water Act, as amended in 1987, are recorded as contributed capital.

I. CAPITAL ASSETS

The CWSRF has no capital assets or long-term obligations at June 30, 2014.

J. COMPENSATED ABSENCES

The CWSRF has no full-time employees. The fund pays a portion of the salary of various employees of LDEQ for administrative services. Therefore, no compensated absences, pension benefits, or postretirement benefits are provided by the fund.

K. ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH

As reflected on the Statement of Net Assets, the CWSRF has cash totaling \$312,085,872 at June 30, 2014. All monies of the fund are deposited with the State Treasurer's Office. Cash balances are held and controlled by the state treasurer and are secured from risk by the state treasurer through separate custodial agreements, and the risk disclosures required by accounting principles generally accepted in the United States are included within the State of Louisiana's financial statements.

3. DUE FROM OTHERS

As shown on the Statement of Net Assets, the CWSRF has a total due from others of \$718,722. This is comprised of the following:

Due from municipalities for interest due on loans	\$ 381,135
Due from municipalities for fees due on loans	\$ 224,947
Due from state treasury	23,529
Due from federal government	<u>89,111</u>
Total due from others	<u>\$ 718,722</u>

4. LOANS RECEIVABLE

The CWSRF makes loans to qualified political subdivisions of the State of Louisiana for projects that meet the eligibility requirements of the program. Loans are financed by capitalization grants, state match, and revolving funds. Effective interest rates on loans vary between 0.95% and 3.95%, including .50% administration fee, and are generally repaid over 20 years starting within one year after the project is completed. Details of loans receivable as of June 30, 2014, are as follows:

Completed projects	\$ 87,030,445
Projects in progress	<u>144,025,653</u>
Total	<u>231,056,098</u>
Less current portion of loans receivable	<u>20,813,926</u>
Non-current loans receivable	<u>\$ 210,242,172</u>

NOTES TO THE FINANCIAL STATEMENTS

Loans mature at various intervals through November 1, 2034. The scheduled principal payments on loans maturing in subsequent years are as follows:

	Projects in Progress	Completed Projects	Total
Year ending June 30:			
2015	\$ 10,332,000	\$ 10,481,926	\$ 20,813,926
2016	13,397,890	10,737,985	24,135,875
2017	11,681,956	8,599,064	20,281,020
2018	11,100,910	7,870,000	18,970,910
2019	9,979,755	6,612,000	16,591,755
Thereafter	<u>87,533,143</u>	<u>42,729,470</u>	<u>130,262,613</u>
Total	<u>\$ 144,025,653</u>	<u>\$ 87,030,445</u>	<u>\$ 231,056,098</u>

Encumbered Balances

Over 65.40% of cash and undrawn capitalization grants are encumbered as follows:

1	Cash and cash equivalents	\$ 312,085,872
2	Undrawn capitalization grants	<u>5,703,597</u>
3	Total cash and undrawn grants	<u>317,789,469</u>
4	Loans in progress - encumbered	\$ 207,824,321
5	Loans (4) as a percentage of total (3)	65.40%

The Loans in Progress – Encumbered represents the projects that are under construction and have only drawn a portion of the total approved loan amount. This figure consists of the total approved principal less the principal loaned to date.

NOTES TO THE FINANCIAL STATEMENTS

Loans to Local Governments

As of June 30, 2014 the CWSRF had made loans to 16 municipalities that, in the aggregate, exceeded or equaled \$4.5 million for each municipality. The outstanding balances of these loans represent approximately 80% of the total loans receivable as follows:

Local Government	Authorized Loan Amount	Balance on Loan Oustanding
Shreveport	\$ 87,664,906	\$ 50,553,384
Kenner	\$ 55,890,678	\$ 22,340,223
East Baton Rouge	\$ 53,300,000	\$ 7,993,430
Jefferson Parish	\$ 35,250,000	\$ 5,871,238
Monroe	\$ 25,700,000	\$ 6,859,072
Bossier City	\$ 22,000,000	\$ 18,979,129
Lake Charles	\$ 21,000,000	\$ 4,010,755
Lafayette	\$ 18,113,260	\$ 4,420,000
Bossier Parish	\$ 17,750,000	\$ 1,204,059
Terrebone Parish	\$ 17,000,000	\$ 14,517,980
Zachary	\$ 14,300,000	\$ 8,211,780
St. Charles Parish	\$ 12,800,000	\$ 4,132,890
Delhi	\$ 11,000,000	\$ 9,466,579
Plaquemine	\$ 9,500,000	\$ 2,512,417
New Orleans	\$ 9,000,000	\$ 8,589,000
Thibodaux	\$ 8,510,755	\$ 1,242,492
Gonzales	\$ 7,294,064	\$ 1,214,064
Jennings	\$ 6,500,000	\$ 840,000
New Iberia	\$ 6,497,000	\$ 679,908
Rayne	\$ 6,450,000	\$ 1,220,000
Caddo	\$ 6,250,329	\$ 805,000
Lockport	\$ 5,770,000	\$ 537,627
Hammond	\$ 5,000,000	\$ 352,921
Leesville	\$ 4,710,000	\$ 320,000
Alexandria	\$ 4,550,000	\$ 2,584,094
Pineville	\$ 4,500,000	\$ 1,807,540
	<u>\$ 476,300,992</u>	<u>\$ 181,265,581</u>

5. REIMBURSEMENTS DUE TO MUNICIPALITIES FOR CONSTRUCTION

At June 30, 2014, no approved loan disbursement requests were in process.

6. LONG-TERM OBLIGATIONS

The CWSRF is allowed by statute to incur indebtedness but not allowed to issue bonds directly. To provide state matching funds when direct cash appropriations were not available, LDEQ received approval from the EPA to borrow matching funds by using the interest portion of the revenues received. The Secretary of LDEQ, through a Resolution by Executive Order pursuant to R.S. 30:2305 *et seq.* was authorized, for state matching purposes, to borrow through the issuance of the department's note to the Louisiana Public Facilities Authority (LPFA), a conduit issuer of serial bonds for the department and the state.

The first serial bond issue was called Louisiana Public Facilities Authority Taxable Revenue Bonds (MFRLF Match Project) Series 1995. This indebtedness was secured solely from the pledge of the interest portion of the revenues received by the department from loans made by the program. The LPFA is a public trust and public corporation organized and existing for the benefit of the State of Louisiana. In accordance with the \$15,000,000 Loan Agreement between the LPFA and the department and in accordance with the \$15,000,000 Indenture of Trust between the LPFA and First National Bank of Commerce, the trustee, the LPFA issued serial bonds for \$15,000,000 and was repaid the \$15,000,000 by June 30, 1999. As of June 30, 2014, a total of \$14,654,221 had been generated for matching fund purposes by the issuance of these serial bonds.

The second serial bond was called Louisiana Public Facilities Authority Revenue Bonds (MFRLF Match Project) Series 2001 and was issued during the fiscal year ending June 30, 2002. This indebtedness was secured solely from the pledge of the interest portion of the revenues received by the department from loans made by the program. The Loan Agreement between the LPFA and LDEQ was for a total of \$12,000,000 of which \$3,000,000 was issued during the fiscal year ending June 30, 2002. An additional \$6,000,000 was issued during the fiscal year ending June 30, 2003. No bonds were issued during the fiscal years ending June 30, 2004, and June 30, 2005. An additional \$3,000,000 was issued during the fiscal year ending June 30, 2006. The \$12,000,000 Indenture of Trust was issued between the LPFA and Hancock Bank of Louisiana. As of June 30, 2014, a total of \$11,757,295 was generated for matching fund purposes by the issuance of these serial bonds.

The third serial bond was called Louisiana Public Facilities Authority Revenue Bonds (MFRLF Match Project) Series 2007 and was issued during the fiscal year ending June 30, 2007. This indebtedness was secured solely from the pledge of the interest portion of the revenues received by the department from loans made by the program. The Loan Agreement between the LPFA and LDEQ was for a total of \$10,000,000 of which \$4,000,000 was issued during the fiscal year ending June 30, 2007. The \$10,000,000 Indenture of Trust was issued between the LPFA and Hancock Bank of Louisiana and amended to \$20,000,000 on May 20, 2010 then to \$25,000,000 on May 10, 2012, and amended to \$35,000,000 on October 18, 2013. As of June 30, 2014, a total of \$26,228,131 was generated for matching fund purposes by the issuance of these serial

NOTES TO THE FINANCIAL STATEMENTS

bonds. Additional issuance from this series may be issued as needed for future state matching purposes. No liability for these bonds exists at June 30, 2014.

7. CAPITAL CONTRIBUTIONS, MATCHING, AND NET ASSETS

The CWSRF has been awarded 25 federal grants from the EPA. These grants are available through the EPA's Automated Clearing House Payment System (ACH) and the Automated Standard Application for Payments (ASAP). These grants are authorized by Title VI of the Clean Water Quality Act, as amended in 1987 and require matching funds from the state. As of June 30, 2014, the EPA has awarded grants of \$424,419,923 to the state, of which \$418,716,326 has been drawn for loans and administrative expenses. The state has provided matching funds of \$79,393,233. The following summarizes the grants awarded, amounts drawn on each grant as of June 30, 2014, and balances available for future loans:

Year	Grant Amount	Cumulative Dollars Drawn as of June 30, 2013	Current Year Fiscal Draws	Cumulative Dollars Drawn as of June 30, 2014	Remaining Grant Dollars Available as of June 30, 2014
1988	12,000,000	12,000,000		12,000,000	
1989	10,368,765	10,368,765		10,368,765	
1990	10,725,264	10,725,264		10,725,264	
1991	22,560,714	22,560,714		22,560,714	
1992	21,359,349	21,359,349		21,359,349	
1993	21,129,174	21,129,174		21,129,174	
1994	13,110,372	13,110,372		13,110,372	
1995	13,540,230	13,540,230		13,540,230

* This grant includes \$15,000 in in-kind donations from EPA.

NOTES TO THE FINANCIAL STATEMENTS

The state has provided its required matching share of federal grant awards through General Fund and state capital outlay appropriations totaling \$23,753,586. Tobacco Settlement monies of \$3,000,000 was deposited in the fund in the 2000 fiscal year. In addition, part of the required matching share has been provided through the issuance of Revenue Match Bonds secured by revenue of the fund. Beginning in fiscal year 1995, revenue bonds of \$15,000,000 were authorized. In fiscal year 2002, \$12,000,000 in revenue bonds was authorized, in fiscal year 2007; \$10,000,000 in revenue bonds was authorized and amended to \$20,000,000 in 2010, to \$25,000,000 in 2012, and then amended to \$35,000,000 in 2014. As of June 30, 2014 bonds totaling \$53,500,000 have been issued and repaid resulting in net proceeds of \$52,796,590 being used as state matching funds. Additional match bonds will be negotiated as needed to cover future capitalization grants.

As of June 30, 2014 matching contributions are as follows:

	Cumulative State Match as of June 30, 2013	2014 Contributions	Cumulative State Match as of June 30, 2014
State cash contribution	\$ 26,753,586	\$ -	\$ 26,753,586

NOTES TO THE FINANCIAL STATEMENTS

8. OPERATING EXPENSES

Administrative Expenses

Four percent of the federal grant amounts awarded by EPA are allocated to fund the administrative cost of operating the revolving loan fund. The following schedule presents each grant, the 4% amount allocated from each grant, the cumulative expenses incurred in administering the program, and the amount available to be drawn from the EPA for future administrative expenses.

<u>Federal Grant Year</u>	<u>Available 4% Set-Aside</u>	<u>State Fiscal Year</u>	<u>Expenses Incurred to Date</u>	<u>Available for Administration</u>
1988	\$ 480,000	1988	\$ -	\$ 480,000

* Note that 2011/2012 allocations are lumped together because the 2011 allocation was awarded as the 2012 grant and the 2012 allocation was awarded as an amendment to the 2012 grant 12-1.

**This loan has been closed out and written down

Grants were awarded:

2010- 4/5/11

2011/2012- 2/14/12 & 6/26/12

2013-7/19/13

2014-6/18/14

11. LITIGATION AND CLAIMS

Losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund operated by the Office of Risk Management, the agency responsible for the state's risk management program, or by legislative appropriation. The CWSRF has no lawsuits outstanding at June 30, 2014.

11. SUBSEQUENT EVENTS

There are no subsequent events to report.

Exhibit 6
Cash Flow Model
For the year ended June 30, 2014

We apologize that this report is not ready to send. We were waiting on a new report to be built by our consultants in LGTS to send to our Financial Advisors to prepare this exhibit. That report was done on Monday September 22 and didn't give our advisors much time to work on it. We will forward this exhibit as soon as we receive it.

CWSRF Benefits Reporting

Loan: 132 of 132	<input type="checkbox"/> Entry Complete	Tracking #: CS221850-01	Other #:
Borrower: Florien, Village Of	Loan Execution Date: 05/15/2014	Incremental Funding: N	Phase #: 0
Assistance Type: Loan	Loan Interest Rate: 0.95%	Original Tracking #:	
Loan Amount \$: \$199,430	Repayment Period: 20	Same Environmental Results: <input type="checkbox"/>	
<input type="checkbox"/> Final Amount	% Funded by CWSRF: 100%	ARRA Funding: <input type="checkbox"/>	
Total from all Projects \$: 199,430		Multiple nonpoint source projects with similar Environmental Results: <input type="checkbox"/> Total NPS Projects: 0	

Project: 1 of 1 CW Needs Survey Number : # of NPS Projects: 0

Project Description: Installation Of Water Meter Leak detection system

Facility Name:

Population Served (Current) :

by the Project: 692
by the Facility: 692

Wastewater Volume (Design Flow) :

by the Project: 0.0000mgd Volume Eliminated/Conserved: 0.0000mgd
by the Facility: 0.0000mgd

Needs Categories:

I Secondary Treatment \$199,430 100%

Discharge Information:

☐ Ocean Outfall ☐ Estuary/Coastal Bay ☐ Wetland ☒ Surface Water ☐ Groundwater ☐ Land Application
☐ Other/Reuse ☐ Eliminates Discharge ☐ No Change / No Discharge ☐ NEP Study ☐ Seasonal Discharge
NPDES Permit Number: LA0093939 ☐ No NPDES Permit
Other Permit Type: Other Permit Number:

Affected Waterbodies:	Waterbody Name	Waterbody ID	State Waterbody ID	Receiving Waterbody
Primary Impacted :	Bayou Toro		LA110401	<input checked="" type="checkbox"/>
Other Impacted :				<input type="checkbox"/>

Project Improvement/Maintenance of Water Quality:

a. Contributes to water quality Improvement.
b. Allows the system to Maintain Compliance.
c. Affected waterbody is Impaired.
d. Allows the system to address..... ☐ Existing TMDL ☒ Projected TMDL ☐ Watershed Management Plan

Designated Surface Water Uses (Selected):

Primary Contact Recreation
Propagation of Fish and Wildlife
Secondary Contact Recreation
